

Onions

MARKETING

Onions are sold as pre pack, loose or for processing

LAND PREPARATION

We start planting/drilling seed and sets in February/March

DRILLING & PLANTING

We grow red and brown varieties including pickles

WIND PROTECTION

We drill barley or plant straw to protect the emerging seedlings from the wind

GROWING

HARVESTING

We harvest sets end of July & main crop end of August - September

GRADING & PACKING

The CA stored crop will extend the UK season until the end of May/June

STORAGE

The onions are loaded into boxes & bulk stores. Stored in ambient & controlled atmosphere (CA) stores
