

Make Your Own

Egg-Stra Pretty Easter card

Collecting flowers from your garden and using them to make a handmade Easter card is a fun, easy and creative craft idea for the whole family. Bring spring into the home by creating a beautiful centrepiece for your fireplace or a pretty picture to frame and put on your wall.

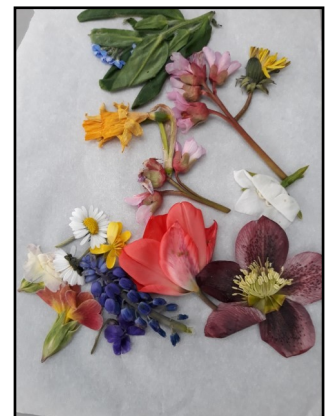

You will need:

Greaseproof or parchment paper, to press flowers in between.

Flowers picked from your garden

A sheet of paper to put your flowers on.

Pencil and glue/ cellotape

The steps are really easy to follow:

1. Pick your flowers from your garden and lay them in between two pieces of greaseproof or parchment paper.

2. Press the flowers by placing the paper they are enclosed in, between two heavy books over night.

3. Write Happy Easter on your piece of paper, place flowers on the writing and either glue or tape in place.

4. You can add your own drawings or cut out Easter eggs from magazines to stick them on.
