

Make Your Own

Pine Cone Christmas Decoration

Homemade DIY pine cone decorations look great on the Christmas tree and are an excellent personal Christmas gift.

You will need:

- Pine cones
- String
- Glue
- Decorations (glitter, pompoms, sequins, ribbon etc.)

Instructions:

1. Cut your string so it's roughly 12cm.
2. With the help of an adult, place glue on top of your pine cone and stick both ends of the string to the glue. Leave to dry for a few hours.
3. Decorate your pinecone. We carefully applied glue to our pine cone and sprinkled it with glitter.
4. Be creative! You could apply glue and add pompoms, sequins and ribbons to your pine cone.

Fun tip: If you have lots of cones, you can stick them together to create a wreath
