KS1 and KS2

Seasonal Summer Fruits

June - July 2024

12.30pm - 3.00pm

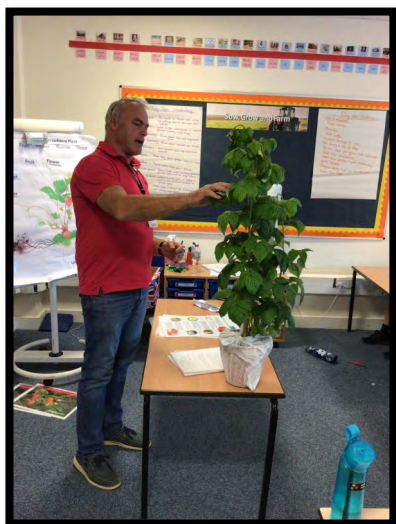

**Seasons come and seasons go,
but do you know where summer fruits grow?**

What's on Offer?

As part of the East of England Agricultural Society's Kids Country educational programme, we are delighted to offer a half-day educational event hosted in your school packed full of learning and excitement!

Learn about the history of the British strawberry and their life cycle

Meet a local farmer and find out what it takes to grow sweet and juicy fruit from the quality of soil to pollination and the machinery used

Enjoy a practical session in tasting different varieties of British summer fruits

Learn about nutrition and healthy choices

Learn all about food labelling

Explore the different parts of a strawberry plant

Taste the difference between British strawberries grown year-round in a tunnel compared to in-season in the local fields

“The children loved all the activities on offer and learnt so much about how their food gets from the farm to their plates. The event was extremely well organised from start to finish and I would not hesitate to recommend it.”
